# A message from CAFOD in the Salford Diocese

## **The paradox of abundance**

Over 800 million people go hungry each day. The world produces over 4 billion tonnes of food and we only need 3.7 billion tonnes to feed everyone. Of this food produced, a third is wasted.

St John Paul II called this 'the paradox of abundance.' Clearly the currently global food system is not working. Pope Francis says, **"Each of us has a role to play in transforming food systems for the benefit of people and the planet."** Let's respond to his call! CAFOD's new campaign is called **Fix the Food System**. See [www.cafod.org.uk/food](http://www.cafod.org.uk/food) for more information, including an invitation for parish groups to learn about the impact of our food with our *Fix the Food System* resources.

Would you like the Gospel of the day, along with an image of a work of art and a short reflection linking the two to drop into your mail box each day? And for free! Patrick van der Vorst was an auctioneer at Sotheby's in London for fifteen years. He then set up his own online art valuation company, ValueMyStuff.com with over half a million customers. In 2018 he sold the company and went to the Beda College in Rome to study for the Catholic Priesthood. He will be ordained Deacon in June this year.

He is passionate about art and how it can speak to the soul. He now produces this website which helps people to read the Gospel of the Day and see a work of art which can offer something connected to it. He gives just a few thoughts. It's free to sign up with no obligation. Just supply your name and email address and each morning the Word of God will be in your inbox with something to look at and contemplate.
